Use a Records and Information Organizer to gather and review pertinent information such as:

- Doctors' names, addresses and phone numbers
- Prescription and non-prescription medications taken
- Drug store name and phone number
- Medicare, Medicaid or other health insurance numbers
- Important papers and where are they kept
- Banking and financial information
- Area legal and financial experts
- Social Security numbers, medical record numbers and military ID numbers
- Informal support resource names, addresses and phone numbers

Go over this information together once per year or when something changes. Consider banking co-signatures, auto bill pay, automatic deposit of all income and online banking. Set yourself and perhaps your elders up with a long distance telephone service that gives you a monthly rate, 1-800 telephone number or method to make as many long distance calls as necessary without constraint.

Include the elders in all of this.
